

ActiveRed 2 - License Agreement

This is a legal agreement ("License Agreement") between You (either an individual or an entity) ("licensee"), and HPH-Software® GmbH. HPH-Software® GmbH grants a non-exclusive, non-transferable, worldwide, royalty-free license to use the software "ActiveRed 2 - ActiveX" and all of the contents of file(s), disk(s), CD-ROM(s), manual(s), documentation(s) or other media with which this Agreement is provided (in the following called *ActiveRed 2*) in the development of end user applications. Upon installing and using *ActiveRed 2* the licensee accepts and agrees to all terms and conditions of the License Agreement. If you do not accept all the terms and conditions of this Agreement you have the right to return *ActiveRed 2* to HPH-Software® GmbH within 30 days of purchase date. The license fee (less administrative charges) will be refunded. *ActiveRed 2* is the property of HPH-Software® GmbH and is copyrighted and protected under international copyright laws.

Grant of License

HPH-Software® GmbH hereby grants to the licensee, and the licensee accept, a non-exclusive, non-transferable license to install, copy, and use *ActiveRed 2* only as authorized below.

ActiveRed 2 is licensed per Developer seat. This means that each individual using or otherwise accessing *ActiveRed 2* for development purposes must obtain the right to do so by purchasing an individual product license. The licensee may make copies on more than one computer, as long as the use of *ActiveRed 2* is by the same licensed developer. *ActiveRed 2* is in "use" on a computer when it is loaded into temporary memory (i.e. RAM) or installed into permanent memory (e.g. hard disk or other storage device) of that computer for development purposes.

The licensee is granted 1 (one) Single Developer license to distribute *ActiveRed 2* royalty-free with an unlimited number of applications, provided they are developed by the licensed developer.

Restrictions

The licensee may not use, copy or distribute *ActiveRed 2* (in parts or as a whole) in any other way than granted by the License Agreement. You may not rent, lease, loan, sublicense or resell *ActiveRed 2*. You may not transfer any of the rights granted to you under this Agreement. You may not reverse engineer, decompile, or disassemble *ActiveRed 2*. You may not copy the Software or Documentation, except for archival purposes. You may not modify, or create derivative works based upon the Software in whole or in part. The Application Software you distribute the runtime files with must be an "end user application". An "end user application" is a specific application program that is licensed to a person or firm for commercial or personal use and may be either an application that is used by the licensee internally, or an application that is commercially distributed to end users for their use. The end user application can not be any kind of software development toolkit, component or any other kind of software developer's resource that can be used to program new end user application.

Under no circumstances you are allowed to distribute *ActiveRed 2* (in parts or as a whole) with applications that can compete with *ActiveRed 2*.

Term and Termination

The license is granted to the licensee if the license fee is paid in full. The licensee may terminate this Agreement at any time by destroying all copies of *ActiveRed 2*. This Agreement will terminate immediately without notice from HPH-Software® GmbH if it is discovered that the licensee fails to comply with any provision of this Agreement. Upon such termination, the licensee must destroy all copies of *ActiveRed 2*.

Redistribution of runtime files

Part of *ActiveRed 2* is the runtime file *hph_ar2.ocx* as well as all other files in the folder "WIN32\Redistributables". The licensee is allowed to redistribute unmodified copies of the runtime files, not limited in numbers, with the end-user applications which have been developed by the licensee using *ActiveRed 2* to third parties under the condition that the licensee agrees to the following terms. Distribution of any other part of *ActiveRed 2* (in particular header-files, license files and license keys) is strictly prohibited. By distributing the runtime files you accept to display the copyright notice "For parts of the code Copyright © 2006 HPH-Software® GmbH. All Rights Reserved." in an adequate position either on the product cover or packaging, in the manual, in an info-dialog or the online-help of the end-user application to redistribute the runtime files with.

Under the condition that HPH-Software® GmbH provides an updated version of *ActiveRed 2* the licensee is granted to distribute the updated runtime files under the terms and conditions of this License Agreement.

Liability

In no event shall HPH-Software® GmbH be liable for any damages whatsoever (including, without limitation, damages for loss of business profits, business interruption, loss of business information, or any other pecuniary loss) arising out of the use of or inability to use the runtime files which you distribute with your end-user applications, even if the company has been advised of the possibility of such damages. Any liability of HPH-Software® GmbH will be exclusively limited to replacement of the product or refund of the license fee paid.
